SWWA Tradeshow Policy:

It is the policy of the SWWA that the SWWA is not responsible for ensuring that competitor booths are not located on the tradeshow floor beside each other/near each other. The SWWA sells tradeshow booths each year at the annual event and due to this not all booths are sold at that time, it is the responsibility of the supplier who does not want to be located beside their competitor to be checking on who is located beside or near them. If it does arise that a competitor is located beside a supplier, regardless of who registered first, it is that supplier's responsibility to either choose a new booth, if a space is available, or to try to find a company willing to make a switch.

The SWWA booth package is available for all suppliers the exception being any groups/companies involved with training of water and wastewater operators.
